Edition 10 17th November 2023

Dear Parents & Carers,

Thank you to parents and carers of year 8 pupils for attending the second of the year 8 Progress Evening's which took place yesterday evening. We hope that discussion with your child's class teachers gave you the information you required about progress being made and next steps.

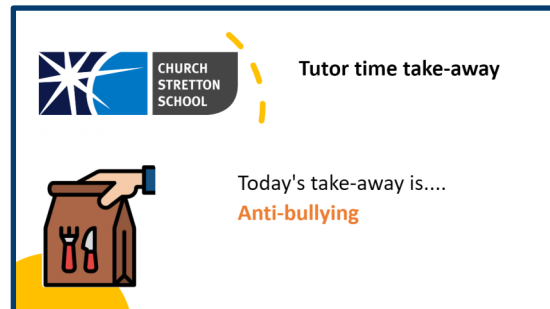

This week has been national Anti-Bullying week, which has seen pupils in school spending time in their Tutor group exploring what constitutes bullying, types of bullying and how to report it in school. This was supported by anti-bullying assemblies led by Mr Bird, Assistant Headteacher, during which two of our fabulous year 11 pupils, Summer and Rosie, spoke about the work that they have been doing alongside others to ensure that pupils in school are very clear about how to report harassment. This has seen the **pupils** decide upon and create posters to be displayed around school and a rolling presentation on screens in the restaurant and hall at break/lunch time as reminders about what is / is not acceptable and how to report concerns. Summer and Rosie, supported by Mr Longhurst, also explored online systems that could be used by pupils to report any concerns that they have around harassment / bullying. Pupils decided that the system that they would like is the SHARP system. SHARP allows young people to report any incidents which occur within the school and local community anonymously and without fear. Aside from the reporting tool SHARP delivers educational content to raise awareness on a wide range of subjects including: Bullying, Health, Community Issues, Weapons and Hate Crime. Thank you to Summer and Rosie for your excellent work to introduce these systems to our school so that pupils have a range of ways to report anything that they are worrying about. A link to the SHARP system will be placed on the school website for pupils to use very soon. Please look out for more information about this form Mr Longhurst, Designated Safeguarding Lead.

For year 11, there is now just one week to go until their GCSE Mock Exams begin. Revision should be seriously under way by this point as these exams give the pupils and staff a clear understanding of what they know / don't know and therefore what targeted support is needed before the final exams in summer..... not far away!

Enjoy the weekend

Revision@Lunch

Year 11 will have had the opportunity to take part in several revision workshops during lunchtimes over the last week, which have introduced them to some of the different methods of revision. The students that took the time to attend these sessions all found them informative and are now planning to incorporate the techniques into their revision repertoire. There is another chance for those students who were unable to attend the sessions this week to do so next week. The timetable for the Revision@Lunch sessions can be found within this article and is shared daily with Year 11 on the screens in the hall and restaurant.

We are mindful that examinations can be stressful occasions, and so the session hosted by Mrs Carr week concentrated on helping students master their nerves. It is important that we all help students to prepare for success by ensuring they are getting between 8 to 10 hours of sleep a night, eating a healthy meal, including breakfast, and that they take breaks from their revision to exercise and socialise. There is help, support and guidance on the school website [here](#) covering how to revise, how to deal with stress and useful links to documents such as the exam timetable. There is a Parent and Carers guide to revision on the school website [here](#).

Good luck Year 11!

This Week in Photos

Online Safety Update

Keep your child safe on Snapchat.

What is Snapchat?

Snapchat is an app for sending photos and videos (known as 'Snaps'), and text messages. The 'Stories' feature lets users share photos or videos with all their contacts at once.

Snaps disappear after being opened, usually within seconds. Stories disappear after 24 hours. Images and messages are not automatically saved on phones.

The minimum age to use Snapchat is 13, but it is easy to sign up if you are younger.

What is the problem?

There is a risk of seeing sexual content, and of bullying.

Your child's location could be shared automatically with their contacts, which could put them in danger if they have strangers as 'friends' on the app. A new 'Meet Up' feature allows people to get directions to another user's location if they are sharing their location.

There is a risk of children being 'groomed' by strangers into sharing pictures and information about themselves. Gangs also use apps to groom and recruit children.

4 steps to help your child use Snapchat safely.

1. Tell your child to only use it with real friends

Anyone could pretend to be a child or teenager online, so encourage your child not to talk to people they do not know in real life. Encourage them not to share information such as what school they go to or where they live with people, they do not know offline.

2. Use privacy settings

By default, only 'friends' your child has added on Snapchat can contact them directly and see their story or location, so encourage your child to keep those default settings.

To check and change the settings:

Tap the person icon in the top-left of Snapchat, then the cog in the top-right.

Scroll down to the 'Privacy Control' section and tap the relevant options (e.g., 'Contact Me' and 'View My Story')

Under 'See My Location,' enable 'Ghost Map' to turn location sharing off.

Under 'See Me In Quick Add' you can stop your child's profile from being suggested to strangers as a potential 'friend'

3. Talk to your child about image sharing and being careful about what they share

Even though images disappear in Snapchat, they can be screenshotted and then shared – outside of the original sender’s control.

So, remind your child to think carefully about the images they share, and with whom. Before they share anything, tell them to ask: “Would I be happy for other people to see this?”

Make sure your child knows the risks of taking, sharing, or viewing naked or sexually explicit pictures of themselves or another child, either voluntarily or if asked to by someone else.

This is known as ‘sharing nudes and semi-nudes’ or ‘sexting’ and is illegal, even when the person doing it is a child. It can also be distressing for a child to have their image shared more widely, or to see an inappropriate image that someone else has shared.

4. Make sure your child knows how to use reporting and blocking functions

To report a Snap or Story, press and hold on it, tap 'Report Snap', then explain the problem.

To remove or block a friend, swipe to the right to go to the ‘Chat’ screen, then tap and hold on the person’s name. Tap ‘Manage Friendship,’ then choose ‘Remove Friend’ or ‘Block.’

What can I do about online bullying?

Encourage your child to talk to you if someone says something upsetting or hurtful to them.

Look for signs they may be being bullied, like being afraid or reluctant to go to school, feeling nervous, losing confidence, or becoming distressed and withdrawn, or losing sleep.

Tell our school about any bullying your child experiences.

There are also few ways you can save images and messages as evidence:

Use another device to, quickly, take a photo of the image or message (this is the only way you can save the image without other people knowing)

Tap on the message, quickly, to save it (other people will know from the grey background)

Take a screenshot, quickly (the person who shared it will get a notification)

Change your ‘delete’ settings to save messages for 24 hours – swipe to the right to go to the 'Chats' screen, tap and hold a friend's name, then 'Chat Settings' > 'Delete Chats...' > '24 Hours after Viewing’.

What can I do if I think my child is being targeted by a gang?

Share your concerns with our school immediately. You can also contact the NSPCC for advice – call 0808 800 5000 or email help@nspcc.org.uk.

Be alert to changes in your child – such as having new unexplained possessions, changing friendship groups, behaviour and mood changes, or unexplained injuries.

Church Stretton School Chrome book leasing programme

Lenovo 300e Flip & Touchscreen Chromebook

Specification:

- AMD 3015CE Processor
- 11.6" IPS Touchscreen Display
- 4GB Memory
- 32GB SSD
- Lenovo Pen (Garaged)
- Dual Band Wireless-AC & Bluetooth
- Rugged & Flip Design (Turns into a Tablet)

The Chromebook leasing scheme was launched on Friday 10th November, which you will have received a letter and flyer about, which explain how the programme works, the specification of the Lenovo 300e Chromebook that is available for purchase or lease and details of how to order the device. The Lenovo 300e Chromebook's are ordered through, and supplied by, Freedom Tech, which is a technology leasing company that provides students with access to the latest devices in a way that is cost effective. Should you have any questions about the device or how the purchase/leasing scheme works please contact Freedom Tech via email: tech4learners@freedomtech.co.uk or by phone: 02038575632.

By joining this programme students will have a School ready device exclusively for their own use at home, with 3-year extended warranty, accidental damage, and theft insurance, both with £0 excess for a one-off payment of £448.65. Orders can be placed using the portal at www.tech4learners.co.uk, you can logon by providing your email address, the username: **CSS23** and password: **S3cure02!** The portal is open now and the deadline for orders will be Saturday 10th December and the first direct debt payment will be taken on Sunday 25th December. We would expect delivery of the devices to be in early January.

Joining the programme is optional, we are simply offering parents/carers the chance to purchase a 'school ready' device that we know would have all the necessary software installed, antivirus protection and security settings to keep students safe. There is no financial gain to Church Stretton School from this scheme and we have worked with several technology suppliers to negotiate the most favourable price. We understand that this cost may not be easily affordable which is why a leasing option is available via monthly direct debit payments over a range of payment terms in addition to the option of outright purchase, for example 31 monthly payments of £17.02. At the end of the leasing period, you will have full ownership of the device. Further details of the programme and the payment options available can be found on the portal at www.tech4learners.co.uk.
