

National Apprenticeship Week February 8th -12th Febraury 2021

Apprenticeship opportunities are growing, not just in the traditional trades and occupations but also with Multi-National companies and professions such as lawyer and Police officer. Next week is National Apprenticeship Week and lots of different organisations have prepared workshops and presentations with different companies to show young people and parents the different careers and professions that can now be started with an apprenticeship.

More information can be found on Start Profile, the careers website the school uses to find about apprenticeships:
